EXPERIENCE

AUG 2026 - OCT 2026

DETROIT, MI

PLC x NEW BALANCE

FOOTWEAR DESIGNER

- Selected as 1 of 16 designers for an immersive 10-week footwear design program with New Balance and Pensole Lewis College.
- Developing footwear through a professional design process focused on consumer insight, concept development, brand storytelling, and product creation.
- Collaborating within a studio environment while receiving mentorship and critique from footwear-industry professionals.

JAN 2026 - MAR 2026

DETROIT, MI

PLC x VF CORPORATION

FOOTWEAR DESIGNER

- Selected as 1 of 16 designers for an 8-week online footwear design program developed in partnership with VF Corporation and Pensole Lewis College.
- Designed a Timberland hiking footwear concept informed by consumer research, performance needs, brand DNA, and outdoor use.
- Developed the concept from research and sketch exploration through material strategy, visualization, and final presentation.

JAN 2026

LONG BEACH, CA

IKEA x CSULB

INDUSTRIAL DESIGNER

- Reimagined the IKEA kitchen experience to explore new ways for customers to interact with products and spaces before purchase.
- Applied industrial design research, ideation, sketching, and concept development to develop and communicate a cohesive product solution.

2025 - 2026

LOS ANGELES, CA

JREAM STUDIOS

PRODUCT DESIGNER

- Developed apparel and product concepts for multiple startup brands across diverse product categories.
- Created brand identities, business cards, graphic assets, and visual systems for emerging brands and businesses.
- Produced 3D visualizations and animations to communicate product concepts, brand stories, and design intent.

2021 - 2025

INGLEWOOD, CA

CONTEMPORARY SERVICES CORPORATION - KIA FORUM

SUPERVISOR

- Supervised guest-services and security operations during large-scale live events at the Kia Forum.
- Coordinated staff coverage and communicated across operational teams in fast-paced event environments.
- Supported guest experience, problem solving, and event execution while balancing safety and operational needs.
